Kaneka Nutrients Puts Mitochondrial Health Center Stage at SupplySide Global 2026

LAS VEGAS — Oct. 7, 2026 — Kaneka Nutrients joins SupplySide Global 2026 as **Official Mitochondrial Health Sponsor**, bringing 50 years of Kaneka Ubiquinol® and CoQ10 science to the show through a program of expert sessions, industry dialogue, and celebration.

Kaneka Ubiquinol® supports cellular energy generation and antioxidant balance within the mitochondrial membrane. Kaneka's sponsorship gives attendees direct access to that science.

"Mitochondrial health is where the next wave of supplement innovation is taking shape," said Terese Mansell, VP of the Nutrients Division. "Kaneka has spent 50 years advancing mitochondrial health. Our sponsorship puts that science in front of brands ready to build on it."

Kaneka's program includes a Lunch Brief led by medical and scientific experts on Oct. 28. On Oct. 29, Joel Evans, M.D., OB/GYN, consultant to Kaneka, joins the Women's Wellness Panel to explore mitochondrial health across a woman's life stages. Attendees are invited to kick off the event on Oct. 28 with drinks and appetizers at booth 4265, or schedule a meeting with the Kaneka team.

About Kaneka Nutrients

Kaneka Nutrients is a division of Kaneka North America LLC and stands at the forefront of the food and beverage industry, specializing in the production of essential ingredients. In 1977, Kaneka Nutrients made its mark in the nutritional ingredient sector with the introduction of Kaneka Q10® (coenzyme Q10). Over the decades, the company has solidified its position as the world's premier researcher and manufacturer of Kaneka Ubiquinol®, the active antioxidant form of CoQ10. Holding the unique distinction of being the sole global manufacturer of Ubiquinol, Kaneka Nutrients emphasizes quality and precision in its manufacturing processes. The state-of-the-art Ubiquinol manufacturing facility is located in Pasadena, Texas. Visit Kaneka
